As Fleet Admiral, I command that the Navy will not offer support and that all other branches remain where they are and not engage with the furries. there are advantages in being Fleet Admiral.

Be that as it may, I'm aware of the meme, but I don't think it'll fly here.

Just explain what's so bad about people liking Anthropomorphic animals and creating characters? We do the same thing with humans and dragons that kind of have alternate personalitys what's wrong with making it come to life with a fursuit? And I am not saying this as a furry but I completely support all of them
